My Digital Skills

Agile methodology: Scrum | Social Media and Email Marketing platforms and analytical tools | SWOT analysis | Search engine marketing | strategy and planning

● RECOMMENDATIONS

Faiq Huseynov – IT Operations Manager – fhuseynov@pashaconstruction.com

I would like to recommend Tamerlan Imanov for the position of IT Support Engineer.

Tamerlan has worked in the IT department almost 3 years. He is providing end-user support for Pasha Overhead office.

Tamerlan successfully managed to support:

- Technical assistance and support for incoming queries and issues related to computer systems, software, and hardware.
- Resolve technical problems with Local Area Networks (LAN), Wide Area Networks (WAN), and other systems.
- Supported relocation and office settlement of CRRE Finance Department at 15th floor of PBT.
- Supported relocation and office settlement of MBArchitect at 8th floor.
- Settled Document Control department office at 15th floor of PBT Block B.
- Provided significant efforts for Company Operation during period of COVID19 pandemic.
- Provided significant support to Pasha Charity project- Early Intervention Center.

He is creative and hardworking, and often helps colleagues on other projects. I believe the department would continue to thrive and grow with Tamerlan as IT Network & Systems Engineer. I am helping Tamerlan to grow his knowledge and share my experience of the systems/network management and his current experience with the company make him an excellent candidate for promotion.

Please let me know if I can offer additional information.

Sincerely,

Faiq Huseynov
IT Projects and Operations Manager

● PROJECTS

29/10/2021 – 30/10/2021

IT Infrastructure Migration / Data Center Relocation

Participated in Data Centre relocation from PASHA Construction to PASHA Technology

Participated successful migration of critical production and contingency servers with no impact to business

Optimized data centre consolidation by employing various migration strategies; such as virtualization, seed swing migration, fork-lift

migration and server consolidation

Participated in deploying of a major ERP System application on Linux RedHat used by 10+ largest business units around country

Facilitated, tracked and completed decommission of applications instances and servers

Hosted weekly status calls with senior management to provide project status, and highlight risks and issues
